

## Sensitivity Training: *Helping Your People be Their Best Professional Self™*

We equip your personnel to be their **Best Professional Self™** by teaching legal and organizational guidelines, principles of respectful treatment, and tools for self-monitoring and conflict resolution.

Should a **harassment or diversity** related claim arise in the future, having participated in our programs supports an affirmative defense to **protect your organization from liability**.

When an incident has already occurred, our programs demonstrate a **prompt corrective** response and get personnel refocused on the government's work.
